Original Preferred Alternative of 1996

COMPLETED PROJECTS

Constructed and Open to Traffic

REMAINING CORRIDOR H PROJECTS

Construction Underway Or Awarded

Additional Environmental Studies Required

REVISIONS

DATE	DESCRIPTION

NOTE:
Per the Settlement Agreement, Alternatives are currently being evaluated in the Blackwater Study area (as of March 1, 2002).

NOTE:
The Corridor H alignment and the base mapping depicted are an approximation of the actual built and non-built sections of Corridor H. Any distortion are a result of differences and errors inherent to the multiple sources used to make this map. Some non-built sections of Corridor H are also subject to minor alignment shifts during the final design and construction process. As those shifts are identified, they will be depicted in updated versions of the map. More detailed mapping of the current Corridor H Alignment Resource Plans (ARLPs) can be found on-line at www.wvcorridorh.com/mapping.
